

SECOND PRESENTATION OF LIFE ZSW PROJECT AT MARMO+MAC EXHIBITION - Verona 26 September 2024

The project technical manager, Ing. Paolo Marone, presented for the second time at Verona Exhibition, the ZSW initiative and the results got during the first project period at the Alfa Marmi pilot site. The presentation has been held at the Fiera Verona CONGRESS ROOM during the workshop organized by Confindustria Marmomacchine for discussing about projects and proposals related to the eco-sustainability applied to the marble and stone industry.

Paolo Marone was supported by dr. Flavio Marabelli (president of Confindustria Marmomacchine), arch. Roberto Bianconi (collaborator of ZSW project for dissemination and social media) and Tommaso Prisco (CEO of Alfa Marmi). There was also the involvement of prof. Diego Begalli, deputy rector of the Università di Verona (which is the main partner of ISIM, engaged in replication and networking activities in Veneto region.)

The workshop was attended by several Italian stakeholders of the marble domain and by international audience which shows a big interest for the technology and the aim of introducing it in their own Countries (India, Vietnam ... t the most relevant exhibition of the marble sector in Europe
