

**PRESENTATION OF “LIFE ZSW PROJECT” AT
MARMO+MAC 2025 EXHIBITION - Verona 24 + 25 September 2025**

For the third time, the IS.I.M. responsible, Ing. Paolo Marone, presented at MARMO+MAC 2025 Exhibition in Verona, the ZSW project and the results obtained during the first project period: the completion of the PILOT SITE ONE (at ALFA MARMI) and the setup of the PILOT SITE TWO (at MARINI MARMI).

The workshops (24 and 25 Sept.) have been hosted by Confindustria Marmomacchine, Verona Stone District, Val Pantena Marble Association with the strict collaboration of regional institutions, their members and managers .

The presentations of the CONCRETE RESULTS got a great by the marble and stone industries (both Italian and Foreign) leading to many requests of visiting the Pilot Site and of receiving proposals for buying equipment for the sludge recycle at industrial scale.

Dr. Tommaso Prisco, CEO of ALFA MARMI, presented the experiences and results obtained by the Pilot ONE: prototypes and END-PRODUCTS of ZERO

The workshop held by Mr. Tommaso Pisco saw the participation of several Italian and foreign stakeholders of the marble segment, which demonstrated a big interest for the result obtained and for the way and costs for replicating the plant at their premises.
